

Jaloc Industrial Lockers

Jaloc provide a range of proprietary designed lockers for general and specialised use.

Clients have requested Jaloc to provide secure storage for gym equipment, school sport mats, flammable liquids, spray equipment, automotive tools, engineering dyes, pottery equipment, compressor housing, roof top refrigeration plant, marine equipment and playground equipment.

Jaloc manufactures storage lockers that are fit for purpose from robust galvanised sheet. Stainless steel sheet and powder coated electro galvanised sheet.

Material gauge can be from .95 to 2mm depending on the usage.

Jaloc cabinets can be supplied with alterations to standard units to accommodate site restraints such as ducting, plumbing and electrical services.

Perforated panels and louvered panels can be installed as an option if ventilation, if sight access is required or if fire sprinklers are used in the Jaloc location.

Jaloc mobile lockers are available with the addition of castors installed to a reinforced base.

Contact The Jaloc engineers to discuss your individual storage needs.
