

The Upright Storage Locker

Model Number : JURL1400

Product Summary

The Upright - Folded Sheet metal Locker unit

The Jaloc Upright locker is a sliding door sheet metal storage Unit with a single side shelf able to be positioned at different heights on the left hand side of the locker.

The upright locker is made from folded electro galvanised top & bottom panels with side panels riveted together with mono steel rivets or stainless rivets for outdoor use

The panels are folded to ensure weather proofing for outdoor use or available with an optional perforated top panel when installed under fire sprinklers.

The door slides on hardened nylon wheels secured with a stainless axle.

The Upright locker uses a robust economical flush mounted pull Handle and a compression latch key operated barrel lock system

The locker uses galvanised screw in M10 adjustable feet
