

Jaloc Industrial Lockers

JALOC over recent times has provided a range of specialised lockers for a number of applications.

Customers have requested JALOCs to provide secure storage for Gym equipment, School sport mats, flammable liquids, spray equipment, automotive tools, engineering dyes, pottery equipment, compressor housing, roof top refrigeration plant, Marine equipment and playground equipment.

JALOC manufactures storage lockers for whatever purpose from robust galvanised sheet. Stainless steel sheet and powder coated electro galv sheet.

Material gauge can be from .95 to 2mm depending on the usage.

JALOCs can be supplied with alterations to standard units to accommodate site restraints such as ducting, plumbing and electrical services.

Perforated panels and louvered panels can be installed as an option if ventilation or sight access is required or if fire sprinklers are used in the JALOC location.

JALOC mobile lockers are available with the addition of castors installed to a reinforced base.

Contact The JALOC engineers to discuss your individual storage needs.
