

OVER BONNET

UPRIGHT LOCKER

The smart, space-saving way to keep bulky items clean, secure and close-at-hand. Made right here in New Zealand.

Squeezed for secure storage space.

Whether you live in an apartment or let-out rental residential units, you'll be all too aware of the space-squeeze that's part and parcel of apartment dwelling and design.

With the focus on maximising living room, storage space tends to take a back seat. In many cases, there's simply nowhere to securely stash such items as bikes, sports equipment, large toys, golf clubs, luggage, spare bedding, wine collections or important files and documents.

Until now, the solution has been to either dispose of such items, store them with friends or family members, or rent a remote storage facility.

Check these Jaloc storage cabinet features:

- ☑ Fits into most standard garages, carports and underground car-parking bays.
- ☑ Multiple units can be installed side-by-side.
- ☑ Strong, lightweight, secure, rust-proof and aesthetically appealing
- ☑ Spacious – with a capacity of 3 cubic metres
- ☑ Versatile – with one internal shelf and optional internal shelving to divide the space according to your needs
- ☑ Excellent value-for-money
- ☑ Bulk discount on cabinets and installation for multiple-unit orders
- ☑ Potential rental income-earner for landlords or residents who don't need the extra storage space

DUAL UPRIGHT LOCKERS

Meet your space saver

Now, there's a smart, space- saving way to keep bulky items clean, tidy, secure and close-at-hand. Jaloc Storage Cabinets are cleverly designed to take advantage of currently unused head and wall space in garages, carports and basement parking bays.

Jaloc Storage Cabinets can be quickly and simply installed against the back wall of any existing car park space. With our Over Bonnet unit and it's Height-adjustable legs, any kind of car or SUV can nose-in under the cabinet, so no car-parking or floor space is sacrificed.

Standard "Over Bonnet Specifications"

- ☑ Robust galvanised steel sheet construction
- ☑ Adjustable height, on 4 legs
- ☑ Lockable doors
- ☑ Installation (extra charge) or self-assembly kitset
- ☑ One adjustable shelf
- ☑ Dismantles for easy transport
- ☑ Dimensions: 2,270mm (x,v) x 1,050mm (D) x 1,225mm (H)
