

Upright Storage Locker

Model Number, JURL1400

Product Summary

This New Zealand made Jaloc Upright - Folded Sheet metal Locker is architecturally suited for an apartment garage or basement carpark area.

The custom designed Jaloc Upright storage locker is a sliding door sheet metal storage cabinet with a single side shelf which can be positioned at different heights on the left hand side of the locker.

The upright locker is made from folded electro galvanised panels riveted together using mono steel rivets.

The locker can be manufactured for outdoor use by adapting the construction to prevent water ingress, using galvanised sheet metal panels and stainless steel rivets and fixings.

The locker can be fitted with an optional perforated top panel when installed under a building fire sprinklers.

The door slides on hardened nylon wheels secured with a stainless axle.

The Upright locker uses a robust economical flush mounted pull Handle and a compression latch key operated barrel lock system

The locker height can be adjusted using galvanised screw in M10 adjustable feet.
