

Upright Storage Locker

Model Number, JSUL-S1400

Product Summary

This New Zealand made Jaloc Upright - folded sheet metal locker is architecturally suited for an apartment garage or basement carpark area.

The custom designed Jaloc Single Upright Storage Locker is a sliding door sheet metal storage cabinet with a single side shelf which can be positioned at different heights on the left hand side of the locker.

The upright locker is made from folded electro galvanised panels and posts bolted together with welded corner gussets. Panels are secured to the frame using mono steel rivets.

The locker can be fitted with an optional perforated top panel when installed under a building fire sprinklers.

The door slides on hardened nylon wheels secured with a stainless axle.

The Upright Locker uses a robust pull handle and a compression latch key operated barrel lock system

The locker height and level can be adjusted using galvanised screw in M10 adjustable feet to approximately 50mm.
